

NAVAL NEGOTIATIONS STRIKE SNAG

FRANCE FURNISHES COMPLICATION IN NAVAL PROBLEMS

Details of Her Attitude are Carefully Concealed—Said She Desires to Launch Capital Ship Building Program—Progress is Made, However, in Far East Discussions

(By The Associated Press)
WASHINGTON, Dec. 16.—The negotiations for reduction of naval armament struck an unexpected obstacle today while the far eastern discussions were making unexpected progress.
France furnished the latest complication in the naval problem and although details of her attitude were carefully concealed, she was represented as desiring to launch a capital ship building program on a scale that would scrap the whole ship-scraping plan agreed on by the United States, Great Britain, and Japan.
In the Far Eastern conversations the question of Japanese withdrawal from the Kiao-Chow railroad in Shantung which twenty four hours ago seemed to have reached a stage of considerable delicacy, was brought suddenly to the point of a tentative agreement between the Japanese and Chinese delegates.
Other issues of the arms conference remained at a standstill. In the new naval committee of fifteen the British formally presented their request for abolition of the submarine, but discussion was deferred.

CONDITIONS IN COOK COUNTY JAIL APPALLING

This is Opinion of the Federal Grand Jury

(By The Associated Press)
CHICAGO, Dec. 16.—Conditions at the Cook county jail were characterized as "appalling," by a federal grand jury which investigated the jail as a result of the escape last Sunday of "Lucky" Tommy O'Connor, gunman and killer, condemned to die on the gallows yesterday. The inspection was made by the jury to determine if the jail was the proper place for the incarceration of federal prisoners. They decided it was not and called upon the public to take steps to secure a new and much larger building.
In a report to Judge Carpenter the grand jury declared that prisoners are crowded in the jail to more than double the capacity for which the building was planned. Meanwhile the trail of "Terrible Tommy," slayer of Detective Patrick O'Neill was completely lost.

David Strauss, jail guard in charge when O'Connor escaped, was released on bonds of \$3,000 to appear next Wednesday for questioning.
Strauss' condition during the six days he had been held for examination was said to be such that he could not stand the searching inquiry into O'Connor's escape.
Charles McDermott, a prisoner, who attempted to escape when O'Connor and two companions made their break for liberty was taken before the grand jury today. He is believed to have told Ashbaugh, a peddler of "dope" to be brought into the jail.

IRISH TREATY IS APPROVED IN BOTH BRITISH HOUSES

Greet Announcement With Prolonged Cheering

(By The Associated Press)
LONDON, Dec. 16.—The prolonged cheering greeted the announcement this afternoon that both houses of the British parliament had ratified the treaty creating the Irish free state by emphatic majorities.
The house of commons immediately after the vote was taken approving the reply to the king's speech from the throne, which meant ratification of the treaty received until Monday to await action on the treaty by the Dail Eireann, which is deliberating in Dublin. The Ulsterites and "Die Hards" fought bitterly to the end in a last desperate attempt to turn the tide, which it was clearly seen from the first would overwhelm them. Charges of broken pledges were hurled at both Prime Minister Lloyd George and Austen Chamberlain, government leader in the house of commons.
Major Robert O'Neill speaker of the Northern Parliament and other Ulsterites, brought their heaviest oratorical guns to bear on the provision of the treaty relating to the appointment of a boundary commission to draw the line between North and South Ireland in a case Ulster decided to remain aloof from the treaty.
They laid great stress upon the point that this provision of the treaty was inserted without the consent of Ulster.

DEFENSE TRYING TO PROVE THAT CHURCH IS INSANE

Mother of Alleged Slayer Says Her Son Was Unlucky

(By The Associated Press)
CHICAGO, Dec. 16.—Mrs. Eva Church, mother of Harvey Church, on trial for the murder of Bernard Daugherty, an automobile salesman, was the principal witness for the defense today.
Mrs. Church made the trip to Adams, Wis., with her son, in the automobile, for possession of which Church is alleged to have killed Daugherty and Carl Augustus Daugherty's companion.
Mrs. Church gave testimony in support of the contention of the defense that her son is insane. Her "son was always so unlucky," she said, and described many falls and accidents he had while a child.
Charles Atkinson, dean of the school of commerce of Wisconsin where Church was a member of the students' army training corps in 1918, testified the defendant was "quite an exasperating student, looked at the floor constantly and would not answer questions." Mr. Atkinson said he believed Church was insane. On cross-examination he admitted that other students received lower grades than Church and said he did not believe the others were insane.

SAYS POWERS SHOULD LEAVE CHINA ALONE

(By The Associated Press)
WASHINGTON, Dec. 16.—If China were left alone by other powers, she would recover and find unity, Dr. Yuan Shiang Tsao, assistant secretary-general of the Chinese delegation to the Washington conference, declared today at a luncheon given by the national popular government league. Dr. Tsao's address and subsequent answers to questions turned largely upon the necessity of opposing whatever customs tariff she deems desirable.
Asked about the new four power financial consortium which China has not yet accepted, the speaker declared he hoped the new Chinese consortium, which was formed two years ago by thirty Chinese banks, having an aggregate capital of \$50,000,000 would be able to act as liaison between the international banking group and Chinese concerns who are seeking capital.

TREATY DOES NOT OBLIGATE POWERS TO TAKE UP ARMS

This is Opinion of Senate Administration Spokesmen

(By The Associated Press)
WASHINGTON, Dec. 16.—While another assault on the four power Pacific treaty was in progress today in the senate administration spokesmen took their first notice of the senate discussions and let it be known that they did not regard the treaty as imposing an obligation to take up arms.
No provision of the new agreement, it was declared in the highest administration circles, obligates any one of the four powers to take military measures in pursuance of decisions reached by consultations among them.
The officials reiterated that the region of the Pacific ocean as the term is used in the treaty, includes the principal islands of the Japanese empire and Australia and New Zealand as well, and declared to be the unanimous understanding on which the treaty was signed.
The attack on the treaty in the senate during the day was made by Senator Reed, democrat, Missouri, who declared an obligation was included in the pact for protection of Japanese territorial integrity and characterized the arrangement as an alliance by which the United States would gain little and lose much.
Senator Reed also declared the four power plan might compel the United States to go to war against China or Russia. On this point, official spokesmen have insisted the treaty in no way affects the main land of Asia.

Further than this, there has been no attempt by the administration to interpret or explain the treaty. The same attitude of silence has been adopted by administration senators and Senator Reed's attack today. Senator Curtis of Kansas, the party whip, announced there would be no discussion of the subject until it is formally submitted by President Harding.
Leaders on both sides predict a minimum of debate on the new pact until after the armament conference is ended.

MERCHANT MARINE TO BE VALUABLE ASSET

(By The Associated Press)
CHICAGO, Dec. 16.—An American merchant marine will become an even more valuable national asset if the naval holiday proposed by the conference on limitation of armaments is put into effect, A. D. Lasker, chairman of the United States shipping board said tonight in an address before the Chicago Association of Commerce.
Shipbuilding will then become almost a "lost art," he said unless work continues on the merchant marine and pointed out that with equalized navies, the nation having added convertible merchant marine tonnage still has the preponderance of power. Great Britain now enjoys that distinction, he said.
The claims for an American merchant marine, however, must rest on its economic necessity rather than its usefulness for defense he said. Mr. Lasker asserted that a merchant marine owned and operated by Americans was vital to the interest of all.

RENEW ARGUMENTS AGAINST RAILROAD RATE REDUCTIONS

Spokesmen of Railroads Appear Before Commission

(By The Associated Press)
WASHINGTON, Dec. 16.—Renewed arguments against General rate reductions by the interstate commerce commission were made today by spokesmen for the railroads in three districts of the United States.
Arguments were based, the spokesmen explained, in statistical studies of earnings and the effect upon them of rates and traffic fluctuations.
T. C. Powell, vice-president of the Erie was the witness for eastern carriers. W. S. Maxwell, Washash, spoke for the central freight association including most mid-western territory and George W. Lamb, auditor for the association of railway executives made the presentation for the southern district.

The agitation for lower rates worked to decrease traffic, Mr. Powell said, while Mr. Maxwell, asserted that the outlook would be gloomy indeed for the central roads if the rates are to be decreased.
Since 1907 the latter added, central freight association road earnings had averaged between 3 and 4 per cent on property values. Although the present rate basis had given better results, he said, the prospects were for diminished traffic during next few months.
For the year ending Sept. 30, the southern railroads earned by 1.8 per cent on the value of property used in transportation, Mr. Lamb said presenting figures for the class on lines to which he said all statistical presentation applied. For the ten months of 1921, to November 1, he fixed the return at 2.2 per cent.

FITZMORRIS SAYS HE WILL CLAMP ON UNTIL IT SQUEALS

Sahara Desert Will Have Nothing On Chicago

(By The Associated Press)
CHICAGO, Dec. 16.—Orders to "clamp on the lid" until it squeaks were given to police captains and detectives today by Chief of Police Fitzmorris in launching the police department's campaign to make Chicago dry.
Raids, arrests, license revocations and the injunction writ will be used Chief of Police Fitzmorris said, and promised to make Chicago "so dry that a sponge can be wiped across it without picking up a bit of liquor."
While Chief Fitzmorris announced he needed no outside help, Charles A. Gregory today called in prohibition enforcement agents from over the state, announced that breweries would be watched, that raids would be conducted and that he stood ready to cooperate with the police department.

Even the pockets of individuals will not be safe for Chief Fitzmorris ordered the pockets of persons buying drinks in a saloon searched to get evidence if necessary. The chief said his orders went a little further than the law in order to insure enforcement. Where cabarets are conducted with restaurants, they will have to close at 1 o'clock in the morning or take the consequences he said. In private homes search warrants will be used to obtain evidence and dress suit places will be closed just as quickly as any other, the chief told his officers, adding that policemen will be held strictly responsible for the enforcement of prohibition in their districts.

STATE'S ARGUMENTS IN SMALL AND CURTIS CASE ARE COMPLETED

Defendants Will Know Before Christmas Whether They are to Stand Trial—Defense Will Finish Its Reply Today—Attorney Wilkerson Cites Intent of the Law

(By The Associated Press)
WAUKEGAN, Ill., Dec. 16.—Governor Len Small and Vernon Curtis, Grant Park, Ill. banker, will know before Christmas whether they must stand trial on the indictments charging them with embezzlement of state funds, conspiracy and operating a confidence game.
The state today completed its arguments in opposition to the defense motion to quash the indictments. Tomorrow C. C. LeForge, chief counsel for the governor, will complete his reply and Judge Claire C. Edwards Sunday will begin consideration of his decision. Judge Edwards announced tonight that he expects to spend eight hours in the law library Sunday reading decisions cited by both sides and that he expected to have his decision ready by the latter part of next week.
The court has previously indicated that if he upholds any part of the charges he will set the case for trial starting January 3.

James A. Wilkerson, assistant attorney general of Illinois and Edward Free, assistant state's attorney of Sangamon county completed the state's arguments today. They declared the indictments were properly drawn by a lawfully selected grand jury and cited a long list of court decisions in support of their contention. Mr. Wilkerson closed for the state with a defense of the so-called "special return" of the Sangamon county grand jury which purported to set forth the evidence on which the grand jurors found the indictments.

Bonds of South American companies are now being offered to American investors and promise an excellent return. One disadvantage is that the returns are now calculated upon the present rate of English exchange and no one can forecast just what the rate will be during the years through which the bonds run.

The rainfall yesterday did not cause as much grief among business men in thinking of the bad road conditions and the damage to Christmas trade as would have been true a few years ago. There was a considerable rainfall but the principal roads are in such condition that a little dragging will make them passably good and unless there is still more rain travel conditions will not be at all alarming.

A special representative sent to Europe by Secretary Hoover to make first hand investigation of old world conditions, is said to be enroute home. Following his return the country should have information upon which dependence can be placed and available reasons either for confidence that the better days of business are actually at hand, or the basis for gloom in the knowledge that a considerable time must elapse before the much talked about return to normalcy.

The Chicago & Alton road has again given proof that the men

identified with big corporations are equally interested with other people in humanity. This proof of that "touch of nature that makes the whole world kin" is found in the offer of the road to furnish free transportation to needy pupils of the State School for the Deaf so that they may enjoy the holiday season at home. The road management has done something of this kind in former years, and certainly the kindly generosity of this action should not go without recognition.

One result of present unsatisfactory farming conditions will be to impress upon farmers the need for diversification of their crops. The men who lead in agricultural work have been preaching from this text for a long time and now the advantages are so manifest that diversified farming will be more popular than ever before. With every crop showing a profit, the average farmer could not see the particular advantage of this much talked about diversity system.

PLAN FOR FUNDING FOREIGN DEBTS

The bill creating the foreign debt refunding commission will soon be enacted by congress and the commission, with the secretary of the treasury as its chairman, will turn its attention to the enormously important work before it. "Believing it the duty of all good citizens to study the problems of government and make constructive suggestions whenever the occasion warrants," says the republican publicity association, "we present a comprehensive and apparently feasible plan for handling the principal of the foreign indebtedness, and invite discussion as to its soundness and practicability."

"In brief," continues the association, "the proposition is to ask of each debtor nation an equal annual payment for fifty years, so arranged as to amount that at the end of that period both principal and interest will have been paid in full. In the schedule of payments presented herewith, interest is computed at four and one-fourth per cent. That is the average of the rates borne by the various issues of liberty bonds. The money loaned abroad was raised thru the sale of these bonds and it would seem to be no more than fair that the interest required from the borrowers should not exceed the interest paid on the liberty issues, despite the fact that the temporary certificates of indebtedness held by the treasury call for a five per cent rate.

"Most of these debts are two

years in arrears of interest, making the total interest now due, amount to about a billion and a quarter dollars. That factor is not considered in this plan, but it would be comparatively simple to spread the back interest payments over a period of years, and thus make the burden as light as possible for the debtor nations to bear. It is understood that certain of those countries desire even a further extension of interest payments. That is included in the scheme herewith presented. It will be noted that the annual payments required do not even equal the accrued interest until the end of the second year. Such consideration ought to be all that any debtor nation could ask."

CIRCUIT COURT IS ADJOURNED TO MONDAY

Judge Jones Will Be Here on Third Day to Begin the Pires Case—\$4000 Suggested as Basis of Settlement in Dickinson Suit Against the Coates Estate.

When Judge Smith adjourned circuit court Friday it was to Monday afternoon at 1:30 o'clock, when Judge Norman Jones will preside. Judge Jones is coming at this time particularly to hear the case of Ellsworth Pires, who is charged with the murder of James Gaddis. Judge Smith will return for a court session, Wednesday, Dec. 28.

Much of the time of the court yesterday was occupied with further argument in the suit of Gates Strawn, administrator, vs. Henry Oakes et al. The argument was upon a demurrer filed recently as to certain exceptions. Following the argument, leave was given to amend. Logan Hay of Springfield was here to take part with local attorneys in the proceedings.

In the suit of Susan H. Dickinson vs. J. Weir Elliott et al., acting on motion for a new trial entered by the administrators of the Coates estate as defendants, the court noted that if the complainant was willing to remit her claim to the amount of \$4,000 that the motion for new trial would be overruled, that otherwise the motion will be granted.

In the action of Henry J. Rodgers vs. Edith M. Fox et al., leave was given the complainant to amend his bill.

In the bill of C. R. Sexton vs. Thomas Gibson, for accounting and injunction, the exceptions were overruled, decree entered and the cause stricken.

In the bill of George Hale vs. Neva Jennings Hale, to annul marriage, the suit was dismissed by the complainant without prejudice.

The suit of Mrs. Fannie Cohen vs. Jacob Cohen for separate maintenance was referred to the master to take evidence.

In the bill of Charles O. Bayless vs. Jacob H. Long, brought to quiet title, master's report was approved and the cause stricken. The foreclosure suit of Louise M. Gilbert vs. DeLos N. James, was dismissed by the complainant.

DELAY NECESSARY IN MAKING AWARDS

Scoring Is So Close that Judge Heimlich Will Have to Check Figures Carefully Before Anything Can Be Given Out

The scoring of the exhibits at the poultry show closed last Friday afternoon.

In some instances the scores are close and in a few cases, birds are tied for honors. This has necessitated delay in placing the final honors. The score cards are being checked up and as soon as finished the awards entire will be given to the public.

Yesterday afternoon, Judge Heimlich gave a very interesting demonstration on the merits of the laying types of fowl and also scored the birds entered in the laying contest.

In the heavy laying contest, Mrs. Sam Davis' Rhode Island Reds stand at the head of the class, with a score of 235, meaning the type capable of producing 235 eggs in twelve months.

In the English breeds, R. E. Stocker's Buff Orpingtons, have a score of 235 and the Asiatic class has a score of 220 by the Black Langshans.

Among the exhibits in the Mediterranean class are several ties with the highest score being an egg type, for the White Leghorns and the same score for the Ancona class.

The low score given the Mediterranean is due to the small number of birds entered in this class.

This egg contest feature of the poultry show is proving a most interesting one and is perhaps the most educational feature of the show. Evidently some of the exhibitors in this class are in need of education along this line as birds were entered in the laying contest that were disqualified.

Complete awards will be published later.

WALL STREET'S BOND
THEFT PLOT ADVISED
BY CERTAIN LAWYERS

Counsel for Surety Company
Claims Evidence
Secured

(By The Associated Press)
NEW YORK, Dec. 16.—Wall
Street's \$5,000,000 bond theft
plot was "advised" by certain
lawyers, who shared in the pro-
ceeds of the sale of the stolen
securities, according to an admis-
sion Saul S. Myers, counsel for the
National Surety company, a
heavy loser, said tonight had been
obtained from W. W. Easterday.
Easterday, who is under indict-
ment in Washington in connection
with the case has been corroborated
by certain other witnesses, Mr.
Myers said, "and it now looks as
if some of the stolen certificates
or the proceeds of the sales will
be located."

"After the conviction in Wash-
ington last May of Nicky Arn-
stein, Nick Cohn, David W. Sulli-
van, Norman S. Bowles and East-
erday for bringing stolen securi-
ties into the District of Columbia,"
he continued, "each gave bail
pending an appeal. About three
months ago Easterday's bondsmen
surrendered him and 10 days ago,
he was brought here to testify as a
witness in the Arnstein bank-
ruptcy proceeding."

Easterday testified to the cir-
cumstances surrounding the steal-
ing of the securities by the mes-
senger boys at the instance of Arn-
stein and Cohn. He then showed
how these securities were negoti-
ated by Arnstein and Cohn with
Sullivan, Bowles and Easterday
and how the securities were taken
to Washington, Philadelphia, Bos-
ton and Baltimore and dis-
posed of.

tion. The committee is to work
on the rate proposition. It is

PRICE OF WHEAT AVERAGED LOWER

By Associated Press.
CHICAGO, Dec. 16.—Rain and
snow over large sections of the
winter crop belt with reports that
droughty regions in the southwest
had received some moisture tend-
ed today to make wheat prices av-
erage lower. The finish was un-
settled at 1c net decline to 1c ad-
vance, with May \$1.12 to \$1.12 1/2
and July \$1.02 1/2 to \$1.02 1/2.

Corn closed 1c off, oats gained
1c to 1 1/2c and in provisions the
outcome varied from 5c loss to a
rise of 1 1/2c.

Aside from the weather influ-
ence which gave bears the ad-
vantage, attention in the wheat
pit focussed chiefly on the Kansas
state crop report. During the
early trading the enlargement in
the Kansas estimated yield as
compared with the government's
August returns and with last
year's harvest was something of a
stimulus to bears, but in the
last part of the day was practical-
ly offset by knowledge that Kansas
farm reserves were figured as
being 50,000,000 bushels less than
was the case a year ago. Based
on preliminary threshing returns
the Argentine crop was estimated
today at 107,000,000 bushels as
against 169,000,000 bushels har-
vested last year. Trade lacked
volume and altho fluctuations were
numerous they at no time got be-
yond a range of 1 1/2c.

Corn and oats like wheat, held
within narrow limits.

For the most part dealings
were of a local character. Slowness
of export call for corn was a
subject of comment but values
were upheld by prospective Rus-
sian relief demand.

Provisions showed no decided
change.

STOCK TRADING WAS FAIRLY ACTIVE

By Associated Press.
NEW YORK, Dec. 16.—The ag-
gressive buying movement that
featured yesterday's session of the
Stock Exchange was lacking to-
day. Trading was fairly active
but ran more to speculative or
selected issues.

Overight developments, such as
Germany's virtual default, the
closing of coal mines in the Penn-
sylvania district and prospective
reductions in automobile prices
were among the several incidents
calculated to diminish bullish en-
thusiasm. Foreign exchange con-
tinued to be adversely affected
by the German situation. Coolers
finally threw off professional
selling pressure but many of the
less important industrials and
miscellaneous stock reacted one
to two points on moderate offer-
ings.

Oils again supplied a disap-
portionate share of the day's busi-
ness. Sales amounted to 550,000
shares. Call loans opened and re-
newed into next week at five per
cent the rate later rising to 5 1/2
against yesterday's maximum of
six per cent. Quotations for time
funds were unaltered but money
was more freely offered for the
shorter maturities.

There was a pronounced falling
off in the demand for bonds, most
of which, including Liberty issues
New York City \$5,000,000 offer-
ing sold at a slight premium. The
foreign division was irregular at
nominal changes. Total sales (par
value) \$16,350,000.

LOCAL TEAMS WIN DOUBLE HEADER

Jacksonville High Takes Camp Point's Measure—Illinois College Trims Macomb Normal—Overflow Crowd Sees Game.

Basketball fans got their money's worth Friday night when they saw two exciting games of basketball for one price of admission.

What made the evening all the more enjoyable was that both games were won by the home teams. The High school played the first game with Camp Point. The visitors had not lost a game this season, their last victory being a win over Quincy high. The score was 25 to 17 in favor of the locals.

Illinois College and Macomb Normal met following the high school game and this game also was a thriller the count being tied and untied several times during the contest. The final score in this game was 31 to 24 in favor of Illinois.

The Jacksonville - Camp Point game started slowly, both teams doing better on defense than they did on offense. For a time the visitors maintained the lead but Jacksonville soon forged to the front and stayed there till it required hard battling all the way.

Camp Point presented a well balanced team and they had the advantage over the locals of having played and won several games. They were fighters and never gave up until the final whistle.

Considering that it was the first game for Mitchell's squad they played an excellent game. The work was such as to lead the fans to the belief that the team will be a whale when it gets to going. Putnam at center outplayed the lanky Myers of Camp Point. Especially was this true in the second half when he broke loose for four baskets. Hunter and Deatherage also did excellent work on offense while Hunt and Arter made the going rough for Camp Point's forwards. Hunt did exceptionally good work until sent to the side lines on personal fouls.

Illinois-Macomb.
The Illinois-Macomb game was as full of action as a dog is with fleas. The game started off with a bluff bang and it was that way all thru, both teams traveling at top speed all the time.

Illinois had it on Macomb on condition and several times the visitors asked time to get their breath. Both teams had trouble in the first few minutes in locating the basket, tho Macomb made a neat shot right at the start but stopped then for several minutes. At the end of the first half the score was 17 to 13 in favor of Illinois.

At the start of the second half Macomb whipped up and put over several counters and forged to the front. It was only a flash in the pan, however, as Illinois soon took the lead and held it until the final whistle.

It was fortunate for Illinois that Antrobus was going good. Most of the other men seemed to be off in their shooting but Antrobus tossed them in from all angles as well as throwing free throws with accuracy in the first half. Antrobus made 23 of the 31 points scored by the Blue and White and played an excellent defensive game as well.

Fraser, Mellon and Farrell scored the other points for Illinois. Cully and Jones played a good game at guard, tho there was a tendency at times to let men get behind them for a close shot.

Miller and Russel did good work for Macomb at the forward positions while Hoyle at center also played a good game. Russel played a good defensive game but went out on fouls toward the close of the game.

Coach Harmon injected several second string men into the fray toward the close and they were able to hold the Macomb team Jacksonville.

The fact that this is the fortieth annual ball, brought the suggestion that there should be some special observance and for this reason the preparations are more than usually elaborate.

CONFERENCE ON QUESTIONS OF STATE-WIDE INTEREST

Mayor E. E. Crabtree is to return this morning from Chicago, where he attended a conference of three committees representing the Illinois Bankers' association, the Illinois Agricultural association and the state Chamber of Commerce. The purpose of the conference is an endeavor to be of service to delegates to the state constitutional convention in matters relating to taxation and Chicago representation, to be presented to the convention and later to the state.

There have been certain conflicts of interests and opinions, which have kept progress from being made, and the effort of the three organizations mentioned, thru the joint committee, has been made to iron out these differences. The representatives of the Bankers' association, headed by Mr. Crabtree, are John Cathcart, president of the Illinois Bankers' association, and S. B. Montgomery, president of the State Savings Loan and Trust company, at Quincy.

RED CROSS WORK IN COUNTY OUTLINED

Miss Forward Made Interesting Address to Rotarians—Duck Dinner Feature of Weekly Meeting.

Members of the Rotary club enjoyed a duck dinner at the Pacific hotel Friday noon thru the co-operation of Eb Spink, one of the club members, with D. L. Bentley, manager of the cafe. Mr. Spink is an enthusiastic sportsman who at intervals makes trips to the hunting ground near Beards-town. He shot some of the ducks and acquired others from friends, so that the wants of the Rotarians were well cared for.

The address of the day was given by Miss Katherine Forward, executive secretary of the Red Cross, and Mrs. F. J. Heintz. Red Cross secretary, spoke briefly.

Other guests were Judge E. S. Smith, Hackett Wilder, William Swift and A. C. Krebaum of Bloomington. The Rotarians had a special song of welcome for Walter Ayers, who was present for the first time since last August, when he was injured in an automobile accident.

Plan for Christmas Baskets.

The Christmas basket committee, which includes Len Magill, Lloyd Hamilton and Walter DeShara, made a brief report and the members of the club were asked to give to the committee the names of any families they happen to know about, to supplement the list secured from the Social Service league.

Miss Forward explained briefly how the Red Cross, which in a national way has functioned particularly in times of war or disaster, determined upon a peace time program. The organization was so effective in the war time that the officers determined that such an organization ought to be used in the pursuance of needed lines of work in times other than those of special disaster. It was stated that services was the motto of the Red Cross at all times. In this county as in others the peace time work is divided in two main departments, one devoted to nursing and the other to home service. The latter emphasizes the work with reference to ex-service men.

Altho Miss Forward has no direct connection with the nursing activities, she gave some facts in order to have her audience understand something about the work which is carried on thru the Red Cross all over the county, especially in connection with the schools. The Red Cross nurse, Miss Riecke, visits all the schools and thru inspection work is able to point out defects and suggest that the parents of the pupils consult their family physicians. In many cases these defects, now minor, will be a very severe handicap later in life if not corrected.

Home Service

In the department of home service, of which Miss Forward is in direct charge, the effort is made to help solve the problems of readjustment in the after the war period and to aid the ex-service men in taking up some of their old relationships.

The speaker said that one of the appalling things about the problems of the ex-service man is in finding that some of the apparently sound physically and mentally at the time of the discharge from the army, subsequently developed ailments that are directly due to the period of service. As a protection to the government the exact facts must be learned in such cases and the Red Cross is doing its full share in this work.

Miss Forward said that people often questioned the need of such service, now that the war has been over for several years, but she referred to her record for November, showing that she had dealings directly or with families of 139 ex-service men.

The Red Cross work also has its connection with the vocational center in Jacksonville State hospital and continually aid is given men there in presenting to the government facts that are needed for the right settlement of their particular cases. Altogether it was a very informing address and the Rotarians were impressed with the scope of the work and with Miss Forward's way of presenting it.

Mrs. Heintz was called upon by President Riley and as a senior Camp Fire guardian referred to the definite help given the work among organized groups of boys and girls by the establishment of the Rotary club cottage at Meredosia.

DOUBLE FUNERAL HELD IN PEORIA FRIDAY

The funeral of Mrs. Emolia Boland and her sister, Miss Amelia A. Saner, was held in Peoria Friday morning at St. Bernard's church, and interment was made in the St. Joseph cemetery.

Reference was previously made to the fact that Mrs. Boland and Miss Saner, who were former residents of Jacksonville, died on the same day. Miss Saner passed away at 5 o'clock Tuesday afternoon as the result of a stroke of apoplexy suffered Monday and the death of Mrs. Boland occurred just six hours afterward. She had been very ill for several months and it was to care for her sister that Miss Saner had recently left Springfield and gone to Peoria.

Three brothers survive: Edward C. and Louis H., both of Springfield and William P., of Jacksonville. Mrs. Boland leaves also her husband and three children of a former marriage. They are William L. Eck, Mrs. Nettie Eades and Mrs. Clara Roach, of Peoria. Mrs. Lawrence Quinlan, of this city, a daughter of Mrs. Boland, was one of those who attended the funeral.
